Follow Gretta in this stargazing adventure of hers! Let the ambitious young compound word hunters in 4th grade dive deep and surprise you with as many compounds as they can! Underline the Compound Words
This worksheet has your children carefully read the sentences, and underline the compound words mentioned therein. Keep your eyes wide open and check wherever there 2 words come together. Split the Closed Compound Words
Understanding which two words have joined together to form the compound word is important. In this printable pdf, kids underline the compound word and identify the two words in it. Choose the right Closed Compound Words
In this compound words worksheet, let the children complete each sentence with the appropriate closed compound word from the box. This helps solidify their learning big time. Open Compound Words
Ask 3rd grade kids to check if there is a space between the two words that have come together to form the compound word. If there is, it's an open compound word, or else it isn't. Hyphenated Compound Words
Prepare your kids to know and identify hyphenated compound words. The word "hyphenated" is self-explanatory. Here, kids complete the sentences using the right hyphenated compound words from the box. Teaching children to read is an important skill they'll use for the rest of their lives. When children need extra practice using their reading skills, it helps to have worksheets available. You can find an assortment of printable reading worksheets for free and for sale on several websites.
Teacher Websites
There are several teacher websites where you can download reading comprehension worksheets they created for their classrooms. One advantage of using these worksheets is that they are designed for specific reading levels and have been tested in a classroom. Many follow the formats used on state and local tests that measure reading ability. The teachers sometimes include anecdotal notes and tips for making the worksheets more effective.
Publisher Websites
Publishers of textbooks, education research and professional development books sometimes offer worksheets on their websites. These worksheets usually are samples from the books they publish so that you can preview the content. Book publishers sometimes produce worksheets to pair with their books. If you're looking for additional practice while reading a specific book, check out their websites for graphic organizers and comprehension questions. You also can purchase collections of traditional and homeschool worksheets in digital books arranged by reading level. Many of these collections are themed by genre or subject matter. This makes it easy to select worksheets that match the child's interest or to build background knowledge in specific areas.
Teacher Resource Sites
Whether you're a teacher or a parent, teacher resource websites are another option for finding reading worksheets. Some sites like Teachers Pay Teachers let teachers upload worksheets they've created and offer them for sale. Others are more collaborative and give teachers a place to share best practices and materials with others. If you're looking for materials to use in a homeschool setting or for after-school practice, check out these sites. In addition to the worksheets, you get access to a community of educators who can help you find the right materials for your children.
Literacy Programs
Even for-profit literacy programs offer free worksheets for parents and teachers. Although they're usually designed for use with the company's program, you can use them for other lessons. For example, the company Reading Horizons has downloadable phonics worksheets that work with its digital phonics program and face-to-face lessons. English learner sites are other good sources. Because these programs are geared toward children learning the English language, they incorporate social studies and science lessons along with the reading skills.
Nonprofit Literacy Groups
Organizations like ReadWorks and edHelper have reading comprehension worksheets available on their websites. You can find reading passages with question sets and vocabulary support to help children practice and improve their reading skills. On the ReadWorks website, you can search for worksheets by grade level, text type and topic. This makes it easy to find worksheets that meet the child's specific needs.
